Characters in Ch6	TN1933 (SB1)

Creatures:

The Creature stats in the TNC were improperly updated to SilCore. Fortunately, the stats are simple enough that a relatively small list of changes will suffice to correct all the errors.

- 1) Drop the Attr column from all skills.
- 2) All skills have a Skill Complexity of 1.
- 3) Navigation and Survival skills are for the creature's native environment. In almost all cases, this will be Land.
- 4) Replace Dodge with Defense.
- 5) Replace Ambush and Camouflage with Stealth. If a creature has both, take the higher score.
- 6) Replace Swimming with Athletics (Swimming).

7) Replace Flight with Athletics. As the creature is naturally able to fly, it does not need a specialty or specific skill of any kind for it.

8) Replace Track with Notice (Tracking).

9) Gunnery with Small Arms, for natural weapons.
